Tuskegee University joins research partnership

Tuskegee University in Tuskegee, Ala., is now a member of the National Space Science and Technology Center (NSSTC), a partnership that includes the Marshall Center, federal agencies, industry and the Alabama Space Science and technology Alliance -- a group of seven universities. Tuskegee University is one of the nation's top predominantly minority research institutions. The NSSTC's primary research areas include space science, Earth sciences, materials science, biotechnology, propulsion, information technology and optics.
